

Pickett Elementary School

2020 - 2021

Mission

Pickett Elementary School will prepare our students for the future by instilling character, values, ensuring success in every aspect of learning, and creating the desire to be lifelong learners. We will accomplish this through team effort, best teaching practices, current research, dedication, and the desire for success for each student.

Vision

Pickett Elementary School will create an inviting, respectful, and safe environment where diversity is valued and our students are inspired to become critical thinkers and problem solvers while gaining confidence as lifelong learners. We believe each of our students will contribute positively to our school community and leave us with a firm foundation on which to continue to build toward becoming a globally competitive member of society. Pickett Elementary students will be both emotionally and cognitively successful in an environment based on respect for themselves and others.

Our Values

At Pickett School we believe:

- Every student can learn
- In maintaining a positive culture for all students and staff.
- It is important that "all people" both big and small know they can accomplish their goals.
- Children and staff need to feel like they "belong" and have a sense of worth.

"You are
Smart, You are
Important, You
are Loved."
